of the Earth Sciences  
2006**

Angelos K. Hannides

March 2007

**The Cyprus Bibliographic Archive  
of the Earth Sciences  
2006**

A collection of publication citations  
relating to earth science investigations  
on the region of Cyprus  
up to and including the year 2006

Prepared by Angelos K. Hannides  
The Cyprus Bibliographic Archive  
of the Earth Sciences Project  
Available on-line at:

## Table of Contents

<b>Foreward .....</b>	<b>4</b>
<b>Articles in peer-reviewed journals and serials (949).....</b>	<b>5</b>
2001-2006 (283) .....	5
1991-2000 (269) .....	21
1981-1990 (153) .....	36
1971-1980 (185) .....	44
1961-1970 (41) .....	54
1933-1960 (18) .....	56
<b>Books, edited books, and reports (78) .....</b>	<b>58</b>
<b>Chapters and sections of books and reports (382).....</b>	<b>63</b>
Deep Sea Drilling Project/Ocean Drilling Program reports (107) .....	63
Cyprus Crustal Study Project (66) .....	68
Geological Framework of the Levant (28) .....	72
NATO Advanced Research Workshops (28) .....	74
Papers in collections on ophiolites and the geology of the eastern Mediterranean (88) .....	75
Report on Cruise 5 of the RV Akademik Nikolaj Strakhov (20) ..	80
Other chapters and book and report sections (45) .....	81
<b>Theses and dissertations (49).....</b>	<b>85</b>
<b>Author index .....</b>	<b>88</b>

## Foreward

I am very pleased to present you with the first collection of citations included in the Cyprus Bibliographic Archive of the Earth Sciences (CYBAES). The publications cited in the Archive describe work done on Cyprus, its surrounding waters and atmosphere. Often, work done in the wider region is also included as it is perceived to regionalize the patterns observed in the immediate space surrounding the island.

This first collection consists of 1458 citations of peer-reviewed articles, book chapters, books, reports, extended conference abstracts, theses and dissertations, dating from 1933 to 2006. The citations have been collected through various bibliographic databases, biographical notes, and reviews. By my estimation they are only a part of what has been published on Cyprus in the earth sciences (especially further back in time), which will hopefully be added to the Archive over the next several months and years.

As a disclaimer, I would like to specify that the criteria used in selecting publications for inclusion in the Archive do not include the legal status or origin of the entity producing the work, but strictly rely on the geographical object of the investigations, which is Cyprus and its surrounding geosphere, hydrosphere, biosphere and atmosphere. Moreover, any manifestation of political boundaries or legal status that may be perceived from the inclusion of these citations in the Archive does not imply the expression of my opinion on these topics.

As you look through this report, you may realize there are citations, or even collections of works that are missing and belong to the Archive. Please visit [www.cybaes.org](http://www.cybaes.org) to find out more about this non-profit effort, links to free publication reprints available from CYBAES or from other sources, the CYBAES newsletter, how to subscribe to CYBAES, and how to contribute, if you wish.

With best regards,  
Angelos K. Hannides

## Articles in peer-reviewed journals and serials (949)

*Note:* Articles appearing in peer-reviewed journals and serial publications are organized by decade. Within a decadal period, they are sorted alphabetically based on the lead author's last name. The numbers in parentheses indicate the number of articles included in that particular time period. Serial publications also include some conference abstract publications such as those of CIESM Congresses.

## Chapters and sections of books and reports (382)

*Note:* This category includes specific chapters and sections of edited books and reports cited in the previous category, as well as other isolated items. The vast majority of these 382 citations (328, or 86 %) fall into six broad sub-categories: the Deep Sea Drilling Project/Ocean Drilling Program reports, the Cyprus Crustal Study Project reports, chapters from the two-volume work “Geological Framework of the Levant,” papers from three NATO Advanced Research Workshops, papers in collections on ophiolites and the geology of the eastern Mediterranean, and papers in the report on Cruise 5 of the RV Akademik Nikolaj Strakhov. The collections within each sub-category are organized by year of publication, and citations within each collection are listed in order of appearance. The seventh sub-category includes the remaining citations, sorted alphabetically by lead author names.

### ***Deep Sea Drilling Project/Ocean Drilling Program reports (107)***
